ASSISTANCE ANIMAL DEFINITION: For the purposes of disability accommodation at Colgate, an animal that is recommended by a healthcare or mental health professional to provide emotional support to persons with disabilities who have a disability-related need for such support. Assistance Animals may be dogs or other animals that can provide emotional support. An Assistance Animal, unlike a service animal, may not accompany a person with a disability beyond the residential setting (e.g., to academic buildings, libraries, or dining halls) without approval from ASDS.

In accepting the accommodation of an Assistance Animal, the Student Handler is responsible for the following:

- All students must comply with all University rules regarding noise, safety, disruption, and cleanliness. The Student Handler must ensure that the Assistance Animal does not create persistent odor, noise or disturbance.
- Keeping the Assistance Animal Approval sign provided by ASDS posted on the inside of the door of the residence where the Assistance Animal is housed.
- Assistance Animals must be housebroken. The Student Handler must remove, or arrange for the removal of, the animal's waste and dispose of all waste in a timely manner. The Student Handler must discuss the appropriate waste disposal method and/or location with residence hall facilities staff.
- When leaving the room/apartment, the Assistance Animal shall be restrained with a 6' or shorter leash or be transported in a container. If on a leash, an identification tag must be prominently displayed.

- Assistance Animals must be current with appropriate immunizations and vaccinations and, when applicable, wear a rabies vaccination tag. Current immunizations and vaccinations records must be submitted to the ASDS office with this Agreement and updated as necessary.
- If the Assistance Animal is a dog, the student must comply with Madison County and/or the Village of Hamilton dog control and licensing laws, and with all responsibilities regarding animal rights and all other owner responsibilities.
- As with anyone living in campus housing, the University may bill the student for damage beyond normal wear and tear or for necessary cleaning above and beyond the standard cleaning of the room. If fleas, ticks, or other pests are detected through routine inspection, the student will be responsible for the expense of pest treatment beyond standard pest management used in University housing.

- The Student Handler must inform ASDS within 10 days when the Assistance Animal is no longer living with the Student Handler.
- The Student Handler must inform ASDS if the Student Handler is making any room or roommate changes, at which time a new Assistance Animal Agreement must be completed with ASDS.

The following are some, but not all, circumstances which will prompt the University to withdraw its consent for the Assistance Animal to live in University Housing:

- The animal poses a direct threat to the health or safety of others.
- The Student Handler does not comply with the above responsibilities.
- The animal's presence results in a fundamental alteration of the University's program or operations.
- The animal or its presence creates an unmanageable disturbance or interference.

An Alternate Caregiver must be identified to care for the animal in the event the Student Handler is unavailable due to an emergency. That Alternate Caregiver is responsible for fulfilling all obligations of the Student Handler set forth within this document for the entire duration of time that the Student Handler is unavailable.

In an emergency when the Student Handler is unavailable, Colgate will attempt to contact the Alternate Caregiver.
