

MINUTES OF THE 12TH ANNUAL MEETING OF THE INTERNATIONAL RDC/TMD CONSORTIUM HELD IN ASSOCIATION WITH 90TH GENERAL SESSION OF THE IADR, THURSDAY, 21 JUNE 2012 5:30PM-7:30PM, BOURBON HOTEL, SALAO IGUAZU VI, IGUAZU FALLS, BRAZIL

ATTENDEES

Members

Per Alstergren, Lene Baad-Hansen, Juliana Stuginski Barbosa, Karina Haugaard Bendixen, Leonardo Rigoldi Bonjardim, Eduardo Enrique Castrillon, Nikolaos Christidis, Paulo Cesar Rodrigues Conti, Andreas Dawson, Justin Durham, Malin Ernberg, Dominik A. Ettlin, Giovana Fernandes, Raul Ernesto Frugone, Luigi M. Gallo, Nikolaos Nikitas Giannakopoulos, Jean-Paul Goulet, Carmen Paz Santibañez Hoyuela, Evelyn Mikaela Kogawa, Thomas List, Frank Lobbezoo, Mauro Elias Mesko, Donald Nixdorf, Richard Ohrbach, Christopher Peck, Francisco J. Pereira, Maria Pigg, Daniel Ralph Reissmann, Vera Lucia Mestre Rosa, Wagner Simm, Peter Svensson, Yoshihiro Tsukiyama

Non-members

Guazal Aarabi, Daniel Farhan, Ana Lucia Franco, Antonio Sergio Guimaraes, Britt Hedenberg-Magnusson, Mohit Kothari, Takashi Lida, Lucas Kleber C Lopes, Shengyi (Audrey) Lu, Camila Maria Machado de Resende, Marc Richard Moeller, Rafael Onofre, Natalia Pinheiro Ribeiro, Monique Lalue Sanches, Barry Sessle, Ira Sierwald, Joli Tordeu Signeuri, Simone Soares, Pune Nina Tawakoli

1. Welcome

Peter Svensson welcomed all members and guests to the consortium network meeting.

2. Executive Committee Reports

a. Minutes from the last meeting

The minutes of the previous meeting on 17 March 2011, held in San Diego, USA, were posted on the website prior to the meeting and accepted as a true record. There was no business arising that is not discussed elsewhere in the Agenda.

b. Status Report from the Consortium Network

P Svensson reported that the Consortium has 132 members and this is an increase from last year. He thanked members proactively recruiting into the Consortium, and noted that the Consortium also sent reminder emails sent to lapsed members. PS reported that the Consortium had progressed a number of activities as outlined below. In particular he noted the progress of the Consortium working groups that are developing further the DC/TMD three axes. He also mentioned IADR's call to action on 'Global oral health inequalities: the research agenda'. He has

recommended strongly to IADR that orofacial pain be included, and is awaiting a response.

He thanked the executive and members of the Consortium for their work, advice and support during his tenure as President.

c. Financial report

Don Nixdorf on behalf of the Treasurer Karen Raphael reported on the financial balance of the Consortium (see enclosure). It was decided to maintain the annual consortium membership dues for the next year at \$25.

3. Committee reports

a. Translations and Protocols

Richard Ohrbach outlined the history of protocol development and translations. Of note is that he is solely managing and that this potentially can slow progress in these areas. There is a plan to hire a translator and charge for translations. This was trialled with the Swedish translation and costing may be approximately \$100 for the DC/TMD. RO emphasised the need for native English speakers to be on the committee. There was discussion on the need for protocols for children as the DC/TMD has not been validated in those under 18 years. This was considered to be an important research project.

Action: Members (and in particular native English speakers) to contact RO to join committee

b. Examiner Training and Reliability

Per Alstergren provided an overview of training and reliability undertaken in Malmo, Sweden. This was a very successful two day program with day 1 focussed on training and calibration of new examiners and day 2 on examiner reliability. It was emphasised that training and calibration need to be resourced from local sites. There was discussion on how to expand this program to other sites to train researchers and clinicians. A collaborative agreement between Buffalo and Malmo facilitated the Swedish training program. It was proposed that members volunteer for a working group of this committee to help develop a strategy for further training programs.

Action: Members (and in particular native English speakers) to consider joining the working group

c. Nomination committee

Nominations were called for President-elect and Secretary. Frank Lobbezoo and Yoshihiro Tsukiyama were nominated and elected as President-elect and Secretary respectively. The Consortium membership congratulated both on their successful election.

4. Executive committee updates / committee updates

See above for President-elect and Secretary elections.

Jean-Paul Goulet and Thomas List remain on the Nomination Committee

It was emphasised that Translation and Protocols and Examiner Training and Reliability Committees need other members to help.

Action: Membership to consider joining in Translation and Protocols Committee and Examiner Training and Reliability Committee.

5. Greetings and vision from new director Ambra Michelotti (Peter Svensson)

P Svensson reported on behalf of new Director, A Michelotto. AM thanked PS, Executive and general membership for their work and outlined the need to continue the recent development of the DC/TMD and expanded TMD classification scheme. AM reported that the logical extension was for a DC for OFP. Further she outlined her view for a pre-IADR workshop next year to discuss further the important work of developing classification schemes, including additional instruments and markers for pain and dysfunction assessment.

6. Status on Workshop reports commenced in San Diego

Brief outlines were provided for the Axis I group (Chris Peck), Axis II group (Thomas List) and Axis III group (Peter Svensson). There was discussion on naming the taxonomic scheme and it was agreed that "RDC/TMD version 2" name should be replaced simply by the name DC/TMD as it was simply an extension of the current scheme. Further this title emphasises both research and clinical utility. There was discussion on Axis II instruments and that the plan was to roll out recommendations from the work group sequentially for consideration of research opportunities. The work group is interested in other instruments which have not been mentioned in the symposium and for consortium members to contact members of the work group with any suggestions.

7. Moving along with publication of DC/TMD (Eric Schiffman / Richard Ohrbach)

R Ohrbach provided an update. The DC/TMD has been finalized and plans to be published in JOP as scientific manuscript and JADA as clinically focussed manuscript. The background and instruments are on the Consortium website and will be released once manuscripts have been accepted for publication.

8. Input from members – brief updates (Peter Svensson)

P Svensson led discussion on the proposed one day pre-IADR workshop/symposium for next year. There was discussion on the need to reach a consensus on clinical data collection: are we collecting the correct data from patients? The three axis model will advance this and next year's workshop/symposium needs to progress this. It was emphasised that the three axes need to be considered as an integrated model and not as three parallel axes which do not relate to each other. It was agreed that this planned workshop/symposium be open rather than by invitation only and that consideration be given to inviting organisations other than IADR to it.

There was discussion on the financial sustainability of the Consortium and that other revenue streams need to be considered. Examples of this included, for a fee, training events for clinicians and researchers and Consortium membership to other organisations.

9. AOB

T List gave a vote of thanks to outgoing executive members P Svensson (President) and C Peck (Secretary) for their work with the Consortium and in recognition presented each with a Brazilian football shirt to exemplify the excellent teamwork of the entire Consortium.

International RDC/TMD Consortium
Treasurer's Report (in US Dollars)
June 21, 2012
Don Nixdorf on behalf of Karen Raphael

Financial Report

Amount of dues per member:	\$21 (\$25 minus \$4 for admin. fee)
Fund balance as of 12/31/2010	\$4,726.09
Fund balance as of 12/31/2011	\$3,907.44
Income during 2011	\$7810.79
Membership dues: \$2810.79	
IASP: \$5000	
Expenditures during 2011	\$8,629.45
Conference: \$8491.20	
Office expnses: \$123.25	
Bank charges: \$15	
New income within 2012	\$924 (membership dues)
Current fund balance (as of 5/1/2011)	<u>\$4,831.44</u>
