Schedule and Expected Availability

Which semesters are you interested in serving as a research assistant? Most labs prefer at least a two-semester commitment. Be sure to include semester(s) and year(s):

How many hours a week (between 8:00am-6:00pm, Monday-Friday) do you have available to work in this lab? Most research assistants enrolled in 3 credits of PSY 498 work a minimum of 8 hours per week. To provide flexibility in scheduling, labs prefer as much availability as possible (i.e., more availability than just 8 hours).

Please place an "X" in all time periods that you **ARE AVAILABLE** next semester. The more availability you can provide, the better. Labs understand that availability may change. Please make your best estimate. Labs typically will request a final schedule from new research assistants prior to the start of the semester.
